

Microsoft Antitrust Case

T. Blanford - 01/28/02

- **How many businesses have been forced out of business by the unlawful, ruthless tactics of Microsoft?**
- **How many individuals have suffered countless loss hours and dollars as the result of Microsoft.**
- **How many Billions of dollars in losses has Microsoft cost business's and organizations of all types including the government and individuals by their buggy and often hacked software. By all means, show me where the security in their software resides. I can't find it.**
- **Show me where the competition is. Microsoft couldn't sell their crap software if there were real competition.**
- **I personally have lost ten of thousands if not hundreds of thousands of dollars and ten of thousands of man-hours as the result of anti-competitive actions by Microsoft.**
- **Show me where the standards are. Show me where Microsoft has promoted and implemented universal cross platform and cross application compatibility.**
- **Who, outside of government, has the power to control the abuses and under-handed actions of Microsoft?**
- **Where is the level playing field for all businesses and individuals?**
- **What is the purpose of government if not to protect the people from unlawfull and unethical acts committed by those without civil sensibilities.**

Where is this crap going to end?

Tom Blanford -
